Energy Efficiency Blitz**

**8:30 am - 1:30 pm  
Platt Park Neighborhood**

This will be a collaborative project between *Rock the Earth* and the *City of Denver GreenPrint* program to provide Denver residents with information on sustainability. During the "Blitz" day on April 18, 2009, hundreds of volunteers will visit 600 - 1,000 homes in Platt Park. Each home visited will be offered the following services: 1) porch bulb replaced with a FREE CFL; 2) signed up for free home recycling; 3) reduction of junk mail; 4) a free front yard tree; and 5) information about water use, household hazardous waste disposal and composting.

Every home will be also offered a free energy audit which includes inspection of: attic and wall insulation, furnace, duct work (sealing and insulation), water heater, pipe insulation, refrigerator & freezer, replace shower heads, replace aerators, and installation of up to 10 CFL's.

**Sunday, April 19, 2009  
Community Garden Project**

**10:00 am - 4:00 pm  
Kepner Middle School**

*Rock the Earth* will be partnering with *Revision International* to create a community garden at Kepner Middle School. This project will be the groundbreaking day where garden beds are prepped for Spring planting, and along with the field work, volunteers will be helping to educate community members about the importance of localized food supplies, and providing neighborhoods with the information, tools and research necessary to begin their own neighborhood community-supported agriculture. All of the food grown will supply local families. All tools and materials will be provided for volunteers. This garden will provide food for over 20 families in need.

***All volunteers will receive complimentary lunch & snacks; a free t-shirt; and best of all, tickets to see Ivan Neville & The Dumpstaphunk at the Sunday evening volunteer concert, where you can join with thousands of other volunteers in celebration.***
